Description

If it's on the bike, it's in the book. The world of cycling is one of death-defying feats and obscure mechanical oddities, heroics and geekiness in equal measure. In Cyclopedia, renowned two-wheel aficionado and acclaimed sportswriter William Fotheringham delves deep into this world to unearth... [More](#)

My Reading History

The library takes seriously the privacy of your library records. Therefore, we do not keep track of what you borrow after you return it. However, our automated system has a feature called "My Reading History" that allows you to track items you check out. Participation in the feature is entirely voluntary. You may start or stop using it, as well as delete any or all entries in "My Reading History" at any time. If you choose to start recording "My Reading History", you agree to allow our automated system to store this data. The library staff does not have access to your "My Reading History", however, it is subject to all applicable local, state, and federal laws, and under those laws, could be examined by law enforcement authorities without your permission. If this is of concern to you, you should not use the "My Reading History" feature.

Start Recording My Reading History

You do not have any items in your reading list. It may take up to 3 hours for your reading history to be updated after you start recording your history.

The best Stephen King book I have ever read . Epic proportions like The Stand but delivered with a nuanced sophistication that can only come from experience. I didn't want to to end.

Posted by Anonymous

Dec 21, 2011

A great time travel tale where the main character goes back in time and tries to change history by preventing the assassination of John F. Kennedy. The book abounds with tons of "what-ifs" and by the end of this long tale, the reader is plumb worn out by this engrossing and draining novel. A great, entertaining and thought-provoking read, which demonstrates that, once again, Stephen is King.

Description

The best-selling author of Blink identifies the qualities of successful people, posing theories about the cultural, family, and idiosyncratic factors that shape high achievers, in a resource that covers such topics as the secrets of software billionaires, why certain cultures are associated with better academic performance, and why the Beatles earned their fame.

Chapter 1

It is a truth universally acknowledged, that a single man in possession of a good fortune, must be in want of a wife.

However little known the feelings or views of such a man may be on his first entering a neighbourhood, this truth is so well fixed in the minds of the surrounding families, that he is considered the rightful property of some one or other of their daughters.

"My dear Mr. Bennet," said his lady to him one day, "have you heard that Netherfield Park is let at last?"

Mr. Bennet replied that he had not.

"But it is," returned she; "for Mrs. Long has just been here, and she told me all about it."

Mr. Bennet made no answer.

"Do you not want to know who has taken it?" cried his wife impatiently.

"You want to tell me, and I have no objection to hearing it."

This was invitation enough.

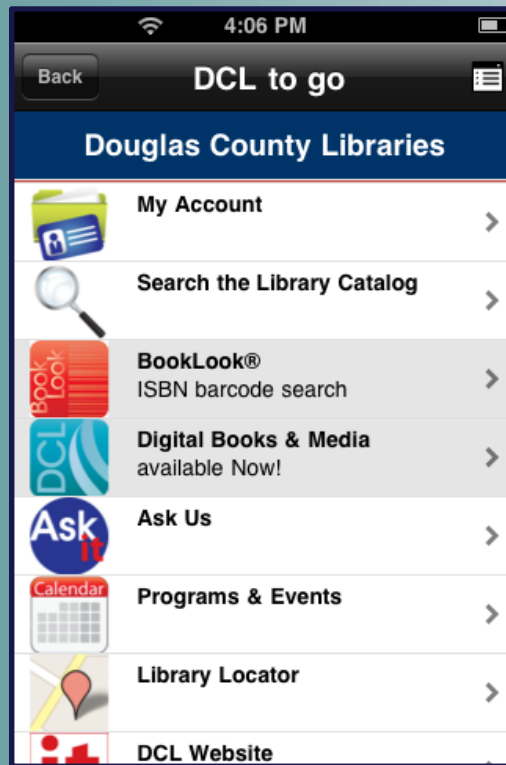

"Why, my dear, you must know, Mrs. Long says that Netherfield is taken by a young man of large fortune from the north of England; that he came down on Monday in a chaise and four to see the
